perceptronics solutions

INTELLIGENT COMPUTING FOR REAL WORLD CHALLENGES

Perceptronics develops intelligent computing technologies that help people make better decisions when facing uncertainty or operating in high stress environments. Our world-class scientists, engineers and human-computer interaction experts design and implement solutions that apply advanced algorithms to build systems that focus on the user. By combining innovative science, artificial intelligence and compelling design, we help our clients tackle the most difficult problems now faced by the US Department of Defense and security agencies, local governments, and corporate enterprises.

SRTS	SOCIAL IMPACT PRO	OSSA VIZ	DART
Leveraging heart rate variability to build resilience	Enabling informed decisions through social media intelligence	Immersive and interactive data visualization tool kit	Commodity-based resource allocaiton and palnning

AID MEDIC	SKILLS Dx	IDEAS	VISTA
Mobile application for Mass Casualty Incident response	Adaptive skill assessment	Authoring and simulation of swarms	Interactive visualization of UAV imagery
