K2 Energy Provides Cells, Modules and Systems

Energy & Power Cells

K2 offers both high power batteries for rigorous duty cycles and high energy batteries for long cycle and calendar life.

Modules

K2 modules are building blocks for fully customized, scalable battery solutions. They deliver high capacity, power and energy safely.

Systems

K2's development & engineering expertise spans all aspects of system design. Because we produce cells, create Battery Management Systems (BMS), and assemble modules, our customer's customized systems can be rapidly brought to market.

See what we can do for your company at www.K2Battery.com

K2 Energy Solutions

K2 Energy not only provides cutting edge technology in the Lithium ion energy storage market, but has a world class team of scientists and engineers with extensive knowledge and experience in all aspects of energy storage design, systems integration, manufacturing, support testing and quality control.
