

## Markets & Applications

- Airborne Sensors & ISR Systems
- Rapid Development for Defense Systems
- Precision Strike & Area Effects
- Area Protection (Surveillance, C-UAS & C-RAM)
- Vehicle Platform Protection (Air, Ground, Sea)
- Electronic Warfare (EW) Systems
- Air & Missile Defense
- Space (Surveillance & Satcom)
- Intelligence & Information Systems

## Locations

## Doing Business with TSC

- GSA PES
- GSA IT
- Seaport-E
- OASIS

## Major Clients

# TECHNOLOGY SERVICE CORPORATION

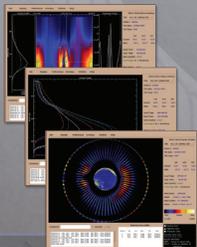

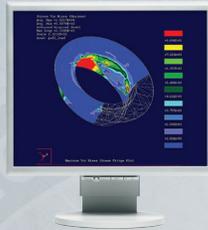

*Technology*  
*People*  
*Results*

TSC is a 100% ESOP employee owned company and Equal Opportunity employer

## Systems Engineering & Analysis

- Requirements Generation & Systems Architecture
- Radar Modeling & Simulation System Performance Analysis & Verification
- Tactical Radar Combat System Scenario Simulation
- Radar, EW & Sensor Data Analysis
- Mechanical, Thermal & RF Analysis
- Target Injection Units (TIUs) & Radar Environment Simulators (RES)
- DRFM Subassemblies & Threat Simulators
- RF Sensor & System Test Sets

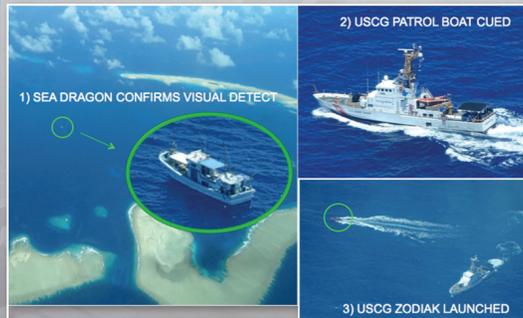

## Rapid Development, Mission Support and Systems Integration

- System Integration, Rapid Deployment & Operation
- Signals Intelligence & Data Products
- Mission Data Collection & Verification

- Launch, Command & Control Support
- ISR Payloads (SAR, GMTI/DMTI, EO/IR, WAS)

## Defense Electronics

- Sense & Avoid (SAA) & PNT Systems
- Active Protection Systems (APS)
- Modular, Software Defined Radar Systems

- Precision Weapons:
  - Seekers
  - Proximity & HOB Sensors
  - Command & Guidance Datalinks
- Receivers, Exciters, HPAs
- DSP & Embedded Processing

- Analog & Digital Assemblies
- Phased Arrays Antennas
- Conformal Antennas
