

CONTINUE THE MISSION AND YOUR CAREER

We seek exceptionally qualified people with operational military and advanced technical backgrounds to continue making a positive impact on our mission of supporting our clients, our country, and its allies. Join our team and support our commitment to deliver the highest quality training, services, and products.

MISSION

Integrate operational, technical, and engineering expertise to enhance customer capability and add value to aviation, training, defense, and national security programs

CORE COMPETENCIES

BGI has been meeting challenges and exceeding customer expectations since 1994. We have built a reputation for, and excellence around, three primary core competencies.

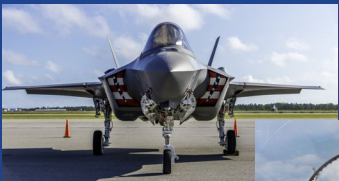

AVIATION TRAINING SYSTEMS

BGI exclusively established the Operational Analyst skill set by expanding the role of the Subject Matter Expert from a casual consultant into a key member of the system engineering team over the entire system lifecycle. BGI also offers engineers that have decades of experience with advanced training systems, including aircraft system and avionics modeling, tactical environment simulation, interoperability, and instructor and debrief tools. BGI contributes to trainers for a wide range of current platforms:

- F-35 (Pilot & Maintenance)
- F/A-18 and EA-18G
- F-16 (Block 40, 50, 52, 60)
- B-1
- MQ-9
- UH-60
- AH-64
- A-10

Key Supplier for Training System OEMs, including:

**ASI • LOCKHEED MARTIN • CAE • BOEING
L3HARRIS TECHNOLOGIES • NORTHROP GRUMMAN**

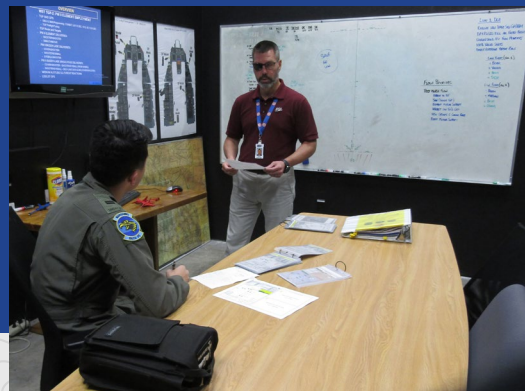

AVIATION INSTRUCTION & COURSEWARE

BGI delivers Flight Training through aircrew instruction and courseware development for formal and continuation training. BGI current and past performance includes:

- Navy/Marine Corps Pilot and Aircrew Curriculum R&M
- F-35 Pilots
- F-16 Pilots
- A-10 Aircrew
- EC-130 Aircrew
- B-1 Aircrew
- B-52 Aircrew
- Air Force Weapons Instructor Course (WIC)
- MQ-9 Pilots and Sensor Operators

**AIR FORCE, NAVY, MARINE CORPS,
AIR NATIONAL GUARD, INTERNATIONAL**

AVIATION DATA SCIENCE

BGI delivers Data Science solutions for Maintenance, Operations, Safety, and Training. BGI data scientists, system and software engineers, and operational analysts analyze internal aircraft systems and avionics data in real-world, simulated, and combined Live-Virtual-Constructive (LVC) environments, including:

- F/A-18, EA-18G, F-35, AH-1, MH-53, UH-60, MQ-4C
- Enterprise Condition Based Maintenance Plus (eCBM+)
- Aircrew Performance Assessment
- NGTS Analysis and Reporting Tool (ART)

BGI specializes in experimentation with data for discovery, and transitions algorithms into enterprise systems to maximize warfighter value in a DevSecOps environment. We are developing operational tools in partnership with:

NAVAIR • ONR
