# ‹Skayl›

**Skayl** expands horizons in mission critical industries. Through leading-edge integration solutions, Skayl helps build an integrated world without traditional cost limitations - a world that grows effortlessly at the touch of a button.

Skayl is a small business providing **systems, software and device interoperability solutions** for large, complex environments with a need for unsurpassed integration scalability, flexibility, dependability, security, and value. Data in motion is pervasive in today's fast-paced world, but the full potential of this data cannot be realized until devices and systems seamlessly and contextually communicate with one another. And Skayl's flagship product, PHENOM™ brings this potentential to our clients. **Skayl is revolutionizing integration, cutting costs, reducing timelines and increasing system scalability.**

THE POSSIBILITIES ARE ENDLESS

## PAST PERFORMANCE / CLIENTS

NATO

**Multiple Tier I & Tier II Primes ***

*\* References available upon request*

## STANDARDS EXPERTISE

☑ UML      ☑ SYSML      ☑ DDS
☑ DoDAF   ☑ UCI / OMS
☑ SAE AS-4 UCS           ☑ SOSA
☑ FACE 2.1 & 3.0
☑ NATO STANAG 4586 & 4817

## SBIR AWARDS:

US NAVAIR 16-2 Phase I & II: Transport Protocol Mediation & Integration

US NAVSEA 18-1 Phase I & II:  Real-Time Integration Substantiation

## CORE COMPETENCIES

☑ Data Architecture
☑ Modeling Processes & Tools
☑ Integration Automation
☑ Open Systems Architecture
☑ Automation Software
☑ Integration Analytics

## KEY DOMAINS

☑ Command & Control
☑ Unmanned Systems
☑ Distributed Sensing
☑ Smart City Systems
☑ Medical Devices & Systems
☑ IIoT / IoT (Internet of Things )

## BUSINESS DESIGNATIONS

Non-Traditional Small
Founded in 2016

## PHENOM™
### your portal to an integrated world

**PHENOM™** is a revolutionary portal for collaborative data architecture management, providing intuitive visualization, navigation, editing, tracing, testing, and code and artifact generation.

### RESILIENT
Provides resilience, scalability, backwards and forwards compatibility through time.

### INTUITIVE
Makes integration of disparate systems so easy even non-data modelers can use it.

### SECURE
Prioritizes security for Defense, Smart Cities, Medical and Exploration.

### VERIFIABLE
Generates models, reports, code and other artifacts that are repeatable and testable.

Skayl also provides:
• Data Architecture Consulting
• Data Modeling Services
• System Architecture Training
