USAF Try-Decide-Buy (TDB) MAC IDIQ Award |
FA8606-19-D-0038 MAX Ceiling Value \$950 Million | Ordering Period through August 2029

Our Small Business Innovative Research (SBIR) Story

Navy Issue: Pilots experience Physiological Episodes (PE's) or hypoxia symptoms when flying high performance jets.

LEGACY MBU-23/P - FACE SEAL

Using Engineering Change Proposal (ECP) process, S3 is able to provide the U.S. Navy with a **FASTER | BETTER | CHEAPER SOLUTION!**

Our Solution: The S3 team is developing a high-performance oxygen mask (HPM) that resolves the root cause associated with physiological episodes. This reduces pilots' poor mask discipline issues and improves their performance.
